

**OUTSIDE
THE BOX LABS**
The Science of Everything

Outside The Box Labs After School Science for Spring 2024!

Join Outside the Box Labs for a series of 1 hour long after school STEM workshops this spring for **5 weeks** of incredible fun, excitement, exploration, and experimentation as we examine our world through the lens of science!

Program Details

Location:

McIntyre Elementary School Art Room

Time: 5-6pm

When: Wednesdays

Who: K-5th Grade

Start Date: May 1st

5 week duration:
(5/1/24 - 5/29/24)

Student Registration Fee: \$110

Our **AFTER SCHOOL PROGRAM** is the perfect way to pack exciting science into your child's day! Geared specifically towards elementary aged students, this program provides the opportunity for kids to get more critical **HANDS-ON** learning in STEM through numerous experiments!

NOTE: Workshops rotate and never repeat so if you joined last year this year is ALL NEW activities!

EXPERIMENT

Kids will apply science to all they see, do, touch, or feel! If you look at the world the right way, you will realize that you can build, disassemble, dissect, design and engineer just about anything!

This program also acts as a fundraiser with \$10/program going to your school PTO

Go to the link below to Register and complete payment online:
